POSITION

Front-End Web Developer

WORK EXPERIENCE

08/10/2018–30/11/2018

Internship Web Developer

ICON Malta, San Gwann (Malta)

Job's tasks performed:

During my internship with Erasmus + project, I developed a new version website in Wordpress using the previous template of the old one.

The detailed tasks whom I carried out:

- Converting Website wireframe to a WordPress Theme;
- Refactoring of a legacy website to a new design;
- Working in an Agile team;
- Participated in Scrum ceremonies;
- Work in a team of Web developers to successfully complete multiple sprints;
- Assisted the team with taking a better user experience approach when building a website;
- Built a fully responsive website;

The user stories are estimated in effort points for the agile method.

Stack of technologies:

- *Web standards:* HTML5, CSS3, JQuery, Wordpress 4.9
- *Project track management:* Jira, Slack, and Confluence
- *System versioning:* Git Bash

01/02/2016–31/05/2018

Wed Developer

InRebus s.r.l, Turin (Italy)

Job's tasks performed:

During my job as a developer, I realized websites, hybrid applications, WBT and interactive catalogues, customizations of web interfaces and surveys, and assembling newsletters starting from graphics mockup designed by graphic designers.

Developing web interfaces for mockups, I realized full stack development of corporate websites, I created CRM platform using web framework to improve user experience with responsive layouts for mobile devices and tablets.

Realization of static custom templates, developing a hybrid application with Apache Cordova, client-side applications to show data by charts using JSON format received from Ajax call or my custom web service.

I develop a web application using Slim Framework PHP for back-end part which fetches data in JSON and Angular with Typescript for the front-end part.

I took part in some developing process for PHP applications with MySQL databases and I tested software and support the team.

The stack of technologies:

- *Web standards*: HTML4/5, CSS3, Javascript, PHP, MySQL, Ajax, JSON.
- *Framework CSS*: Bootstrap, UI Kit, Admin LTE
- *Framework JS*: jQuery, AngularJS, Angular 2/4 Typescript, Cordova
- *System code versioning*: GIT, SVN

15/10/2017–22/12/2017 External IT Consultant & Front-End Developer

Almaviva, Turin (Italy)

Job's tasks performed:

I worked as front-end developer of web portals of Intesa Sanpaolo, a bank company group. I performed my activities on NPM(Non-performing loans) project.

This project consists in developing an eco-system of tool to allow bank company to handle credits and debts of customers.

As External IT Consultant for InRebus to Almaviva's customer I improved UX and UI design and I focus my task on front-end part of web portals using line guides of final customer Intesa Sanpaolo, it provided from their UX designers team of UX Labs.

The stack of technologies:

- *Front End*: HTML, CSS3, Bootstrap, jQuery, AngularJS
- *Backend*: J2EE, Spring Framework, Web Services REST & SOAP

01/12/2015–29/01/2016 Collaborator Web Developer

InRebus s.r.l, Turin (Italy)

Job's tasks performed:

Developing corporate website and support to develop front-end web interface for internal projects as a web developer in collaboration.

Stack of technologies:

HTML5, CSS3, Javascript with jQuery and Bootstrap.

16/09/2015–30/11/2015 Traineeship Web Designer

Wic-o s.a.s, Turin (Italy)

Job's tasks performed:

During my traineeship as a web designer, I realized dynamic websites with Wordpress CMS, dealing to mount the graphics of the website created by my tutor and supporting the back-end developer.

I took care to design and coding newsletters graphics, I used a system of massive sending email for web-marketing DEM campaigns such as MailChimp or from admin control panel of Wordpress.

I maintained websites of customers, updating texts and images from admin control panel or with direct updating in HTML and CSS on CMS based on Python as Django CMS or PHP as Magento and Prestashop

I also developed static web pages as the landing page to promote products of customers.

The Stack of technologies:

- *Web standards*: HTML5, CSS3, Javascript, PHP
- *Framework CSS*: Bootstrap, UI Kit
- *Framework JS*: jQuery
- *CMS*: Django, Wordpress, Magento, Prestashop

09/03/2015–29/05/2015 Internship Web Developer

IS Web Agency s.r.l, Turin (Italy)

Job's task performed:

I developed a "job board" to get in touch companies and factories with graduate and undergraduate students of Polytechnic of Turin.

During my internship, I took care of the development front end part of web portal using an internal web framework owned by web agency and creating a responsive web application.

In addition, I developed the back end part to handle data and managing database in MySQL, in a way to register new users, subscribe to job posts and set up job interviews between companies and students.

I also developed an extension of this web portal to handle the flowing of participants in meetings during the job fair.

In the ending of my intern, I started to develop a CRM portal to handle ticketing process for maintenance of pieces for coffee industrial machines.

The stack of technologies:

- *Web standards:* HTML, CSS3, PHP, MySQL
- *Framework CSS:* Bootstrap
- *Deploy:* Server on FTP with Netbeans

EDUCATION AND TRAINING

21/11/2013–17/07/2015

Diploma of Mobile App Design & Computer Coding

Level 5 QEQ

ITS ICT Foundation for Information and Communication Technologies, Turin (Italy)

Description of study course:

The two-year Mobile App Design course covers the entire production cycle of applications, from concept to development, from execution to business model. I acquired the necessary skills to conceive an aesthetically and functionally complete multimedia product, design an application from specific data, develop and test the mobile apps, distribute and promote them, and to move knowledgeably and effectively in the workplace and in business contexts.

Subjects of course:

- *Web development:* HTML, CSS3, Javascript, PHP, MySQL
- *Mobile development:* Java, Java per Android, iOS
- *Graphics skills:* InDesign, Photoshop, Illustrator
- *Quality research skills:* Desk research, interviews, presentations, storytelling, human centre design, app prototyping, heuristic evaluation, formative evaluation.

15/09/2008–04/07/2013

Diploma of post-secondary level Industrial Engineer in Electronics and TLC

EQF level 4

I.T.I.S E. Amaldi-Sraffa, Orbassano (Italy)

Description of study course:

- Project and building of small electronic circuits;
- Developing small algorithms in C/C++ and Assembly;
- Knowledge in Electronics and Electrical Engineering ;

Subjects of study course:

Electronics, Electrotechnics, Electrical Systems, Telecommunications.

03/09/2018–21/09/2018

English Student

Future Focus, Floriana (Malta)

General English course to improve communication skills in a foreign language before to start the internship experience in a Maltese's company. So after the course, I achieved an intermediate level of knowledge of English between B1 and B2.

PERSONAL SKILLS

Mother tongue(s)

Italian

Foreign language(s)	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B1	B1	B1	B1	B2
KET Cambridge Certificate					

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages

Communication skills	<p>Communication skill acquired in academic environment during presentations of projects, in my volunteering scout's activities and on the job.</p> <p>Writing of online technical documents for job's purposes to describe process development of a software and how it works.</p>

Digital skills	SELF-ASSESSMENT				
	Information processing	Communication	Content creation	Safety	Problem solving
	Proficient user	Proficient user	Independent user	Proficient user	Proficient user

Digital skills - Self-assessment grid

W3School - Bootstrap Certificate

Good knowledge in IT field acquired during my studies, in my spare time and working as web developer.

I know the basics of the major part of web standards of my job field, and I can use frameworks or code libraries to simplify development of web software products. I could use CMS like Wordpress or I will develop one simple version from scratch if it is necessary.

I studied C/C++ and Java when I was at school.

Programming languages and web standards:
HTML, CSS, Javascript, PHP, MySQL, Ajax, JSON, JAVA, C++, C for Arduino

Framework CSS and Javascript frameworks:
Bootstrap, UI Kit, Admin LTE, AngularJS, Angular con Typescript, Ionic 2, Apache Cordova

Framework Back-End:
Laravel, Codeigniter, Slim 3

System's code versioning:
Git from the command shell terminal on Git Hub e Bitbucket
SVN

Other skills I love traveling alone in Interrail, to socialize with other people in the hostel and while I discover cities or museums of the place.

I like reading books and at least once a month I go to the bookshop.

I'm interested in politics and in spare time I juggle with Diabolo when I take part in circus activities in the theatre in my town.

In my spare time, I also like going to the cinema and go cycling or meet my friends.

I took part in youth exchange in Latvia where we organized a sporting event in small city of Gulbene.
